

QUBE

Frame system

When assembling the frame system, two types of profiles and connecting corners are used, allowing for the use of glass and particle board as fillings. The design of the corners allows for the installation of wiring for lighting connections

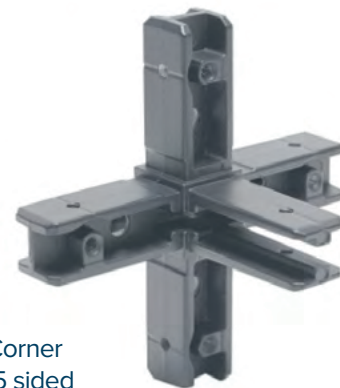

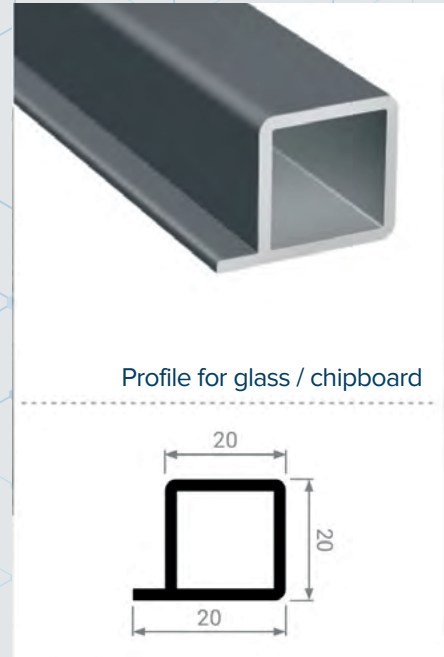

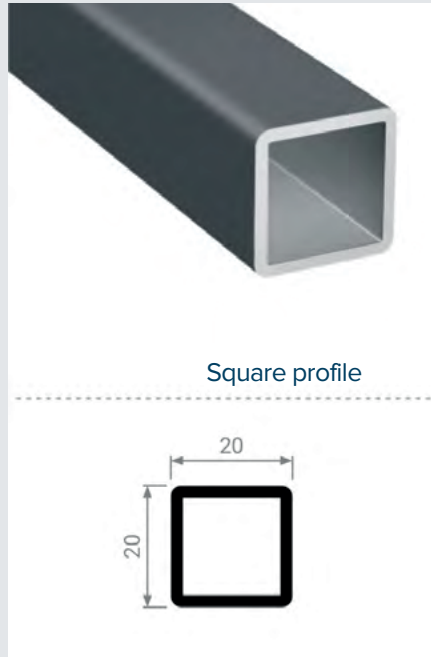

Corner 2-sided

Corner 3-sided

Corner 4-sided

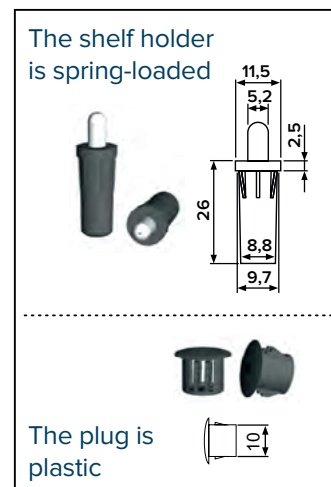

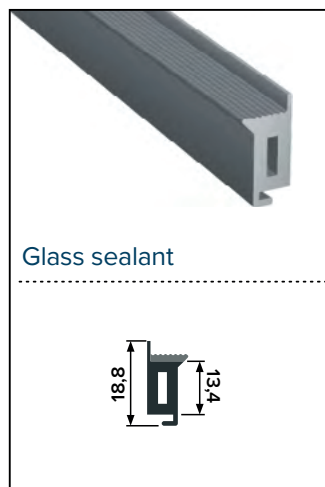

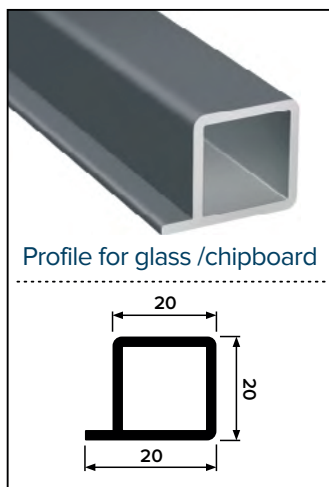

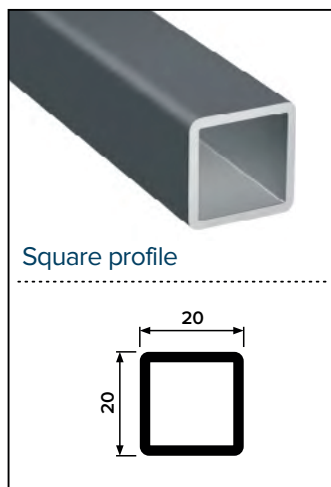

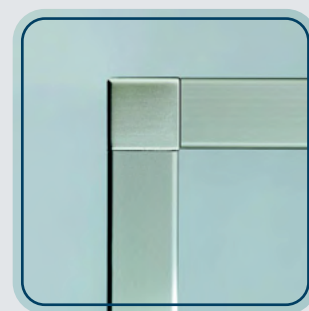

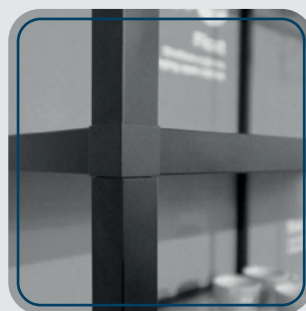

Corner
5 sided

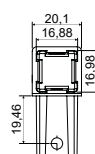

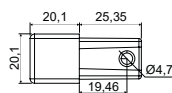

The QUBE system is ideal for placement any purpose: libraries, offices, living rooms, bedrooms, kitchens. Excellent design the solution is zoning the space with racks on bases of the frame system.

QUBE

Installation scheme

Calculating the dimensions of the shelf based on overall frame dimensions*

When using a sealant	A minus 44 mm
Without using a sealant	A minus 40 mm

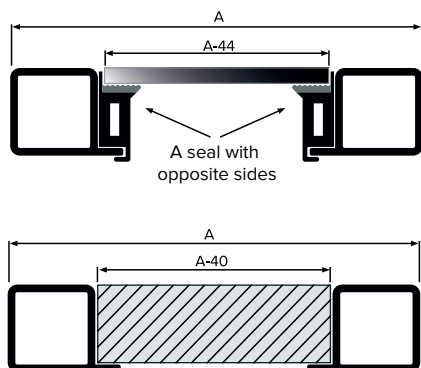

* Glass 4-5 mm thick or chipboard, MDF, solid wood, etc. can be used instead of a shelf. 16-18 mm thick

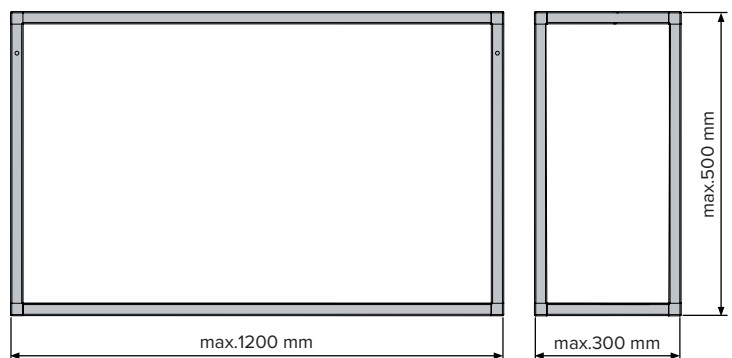

Calculation of the sizes of profile details based on the overall dimensions of the frame

A minus 40 mm

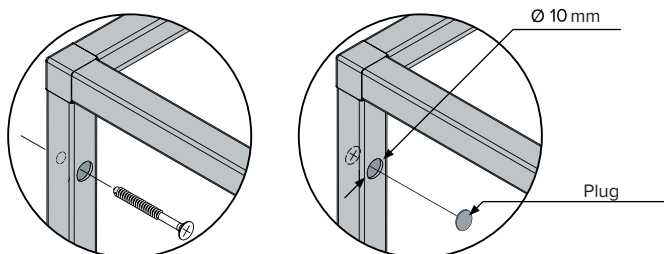

The layout of the shelf depending on its material

Overall dimensions of the frame, recommended by the producer

Frame mounting scheme

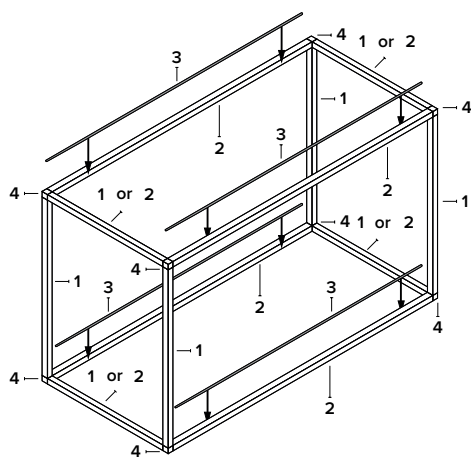

The maximum load on 1 shelf is 50 kg per 1 sq.m.

* Subject to maintaining the overall dimensions of the frame, recommended by the manufacturer, wall mounting, done properly, and also provided that the load is distributed evenly. spring-loaded policy holder, 4 pcs.

The QUBE system consists of various connectors elements that, together with the tubular profile, form various shapes and figures. Such forms provide the function of tables, racks, to water etc.

Thus, it is a multifunctional system that will become decoration of any interior and will give an opportunity to implement the most daring projects.

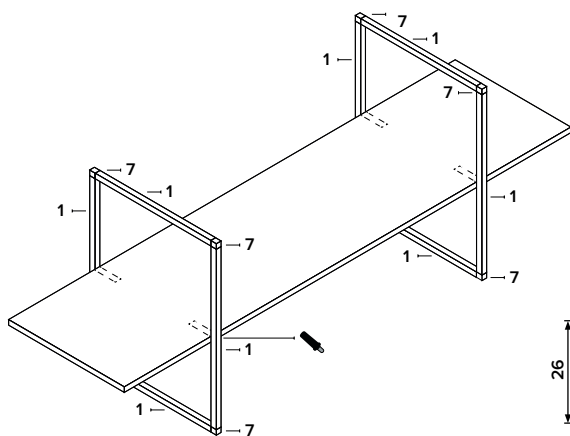

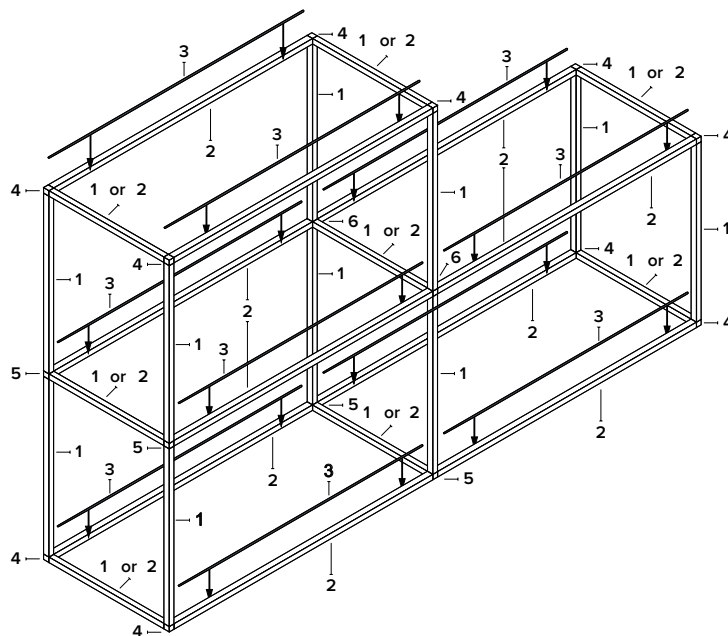

Configuration option 1:

- 1 - square profile
- 2 - profile for glass/chipboard
- 3 - glass sealant
- 4 - connecting corner, 8 pcs.

Configuration option 2:

- 1 - square profile
- 2 - profile for glass/chipboard
- 3 - glass sealant
- 4 - connecting corner, 10 pcs.
- 5 - connecting corner, 2 pcs.
- 6 - connecting corner, 2 pcs.

Configuration option 3:

- 1 - square profile
- 7 - connecting corner, 8 pcs
- 8 - spring pole holder, 4 pcs.
